touch.**

GW pro.line is our Europe-wide standardized general and groupage product, in which we bundle our top services for you. Our modular service offering consists of an extensive product portfolio that can be tailored to your needs with additional services.

With all our products, you benefit from daily departures, defined door-to-door times, and the highest quality standards. In addition, our myGW customer portal offers you access to numerous digital services that make your day-to-day work easier: from order management and shipment tracking including estimated time of arrival (ETA), to document management.

GW moves

Product portfolio

GW pro.line

- GW pro.line is our base product for your general and groupage cargo transportation in Europe.
- You benefit from daily departures, defined door-to-door times, and fixed quality standards.

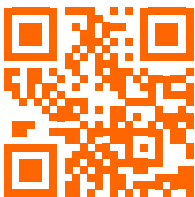

GW pro.line premium

- GW pro.line premium is our extended general and groupage cargo system for your European transports with selectable time windows.
- With GW pro.line premium, cargo can be delivered to defined destinations before 10 a.m. | 12 p.m. | 4 p.m.
- Optimize your supply chain with daily departures, selectable time windows and guaranteed highest quality standards.

GW pro.line premium date

- GW pro.line premium date is our premium day-definite delivery service for European transports.
- With GW pro.line premium date, cargo is delivered to defined destinations before 10 a.m. | 12 p.m. | 4 p.m. on a specified day, even outside the defined door-to-door times.
- Increase the efficiency of your supply chains, with day-definite deliveries, and selectable time windows – all with first-class quality standards.

Product overview

For further details please visit our website.

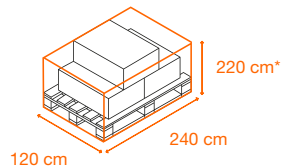

GW pro.line curb

- GW pro.line curb is our standardized product for 1-person curbside delivery.
- Your residential customers benefit from convenient unloading directly to their sidewalk, in front of their front door, or in their driveway.
- Your customer will be notified prior to delivery to ensure optimal scheduling.

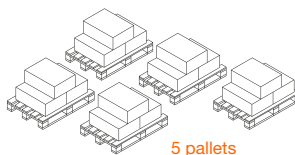

GW pro.line carry

- GW pro.line carry is our customized product for 1-person, point-of-use delivery to B2B and B2C customers.
- Offer your customers the advantage of unloading directly at the point of use.
- Your customer will be notified prior to delivery to ensure optimal scheduling.
- For customer deliveries in the GW pro.line carry product, packaged items with a maximum weight of 31.5 kg per item and 300 kg per shipment are possible.
- For receivers without an elevator, the point of use may only be at ground level or at most on the second floor or basement.
